**Yes.** You can apply the 100% fluid directly onto connections. Wipe off excess.

**Yes.** You can apply the 100% fluid onto a lint-free swab or cloth and then onto connections.

**Yes.** Same as Figure 2, if accessible, apply to battery, pin and SIM card contacts.

**Yes.** If using one of our DeoxIT® sprays, you can spray directly onto the cable connections, NOT the connections on the device!

**Yes.** If using one of our DeoxIT® sprays, you can spray onto a lint-free swab or cloth and then apply to connections.

**NO.** Never use ANY spray directly onto cell phone connections directly. Or any delicate device, i.e. laptops, tablets, clocks, cameras, instruments, etc.

# DeoxIT® Connector Cleaning Kit

## Chemically Improves & Protects Electrical Connections!

**USE ON: Cell Phones, Phone Chargers,  
Batteries, Memory Cards, Cameras,  
Headsets, Microphones, PDA/MP3s,  
Audio/Video, Computers, and more!**

**Easy and Safe to Use:**

1. Turn off cell phone (or other device).
2. If possible, remove battery.
3. Apply a small amount to the metal connections on the battery, phone, headphone jack (both ends), SIM card and charger (both ends).
4. Replace SIM card and battery.

If any surface is extremely dirty, re-apply DeoxIT® until clean (leave overnight for highly corroded connections). A greenish or blackish color may develop over a few days. This is the dissolved contamination. Wipe off with lint-free swab or cloth and re-apply DeoxIT®.

**Contains:** 100% DeoxIT® D100L. Nonflammable, Non-toxic and Non-hazardous. For external use only. Keep out of reach of children.

- ✓ *DeoxIT® will provide reliable charging - No more fiddling with the charger connector!*
- ✓ *DeoxIT® will allow more current to enter the battery and therefore be discharged - Longer battery life!*
- ✓ *DeoxIT® will improve sound quality through the headphone connector - no more crackle and static!*
- ✓ *Just apply to connections before charging your phone every few weeks.*
